Dear Congressman Filner:

I would like to take this opportunity to say "thank you" on behalf of the trucking industry and myself in San Diego, California at the Otay Mesa Port. We want to commend you on always keeping your doors open and your ability to voice our needs to the trucking industry. We are eager to continue working with you to expand opportunities for goods movements through the Otay Mesa Port and would like to express our gratitude for your work in our industry. I hope everyone in the Maquiladora Industry knows how much you do for everyone.

Please know that we stand ready to provide you with any information that you may need regarding California's trucking Industry. Again thank you and best wishes.

Very Truly yours,

Yolanda Jimenez.
